

# Certification of Private Security Activity Training organizations

## Demonstrate your skills in terms of training

The order of the 1st July 2016 determines the rules and the issuing procedures (or the renewal procedures) to be authorized to conduct private security activities. The training organizations that

are involved in Private Security Activity Training must produce a certificate demonstrating their competence in terms of training.

### Benefits

If you are **Private Security Activity Training organizations**, subject to prior authorization from the CNAPS (National Council for Private Security Activities), the certification is mandatory (L.625-2 from the code of internal security-CSI).

This allows you to:

- respond effectively and efficiently to your regulatory obligation;
- have a proof of quality for your customers and partners.

## The 6 steps to get your certificate:

- 1 Ask Apave Certification for a custom quote
- 2 Forward your application documents to Apave Certification for examination of admissibility
- 3 Forward the favorable examination of admissibility to the CNAPS (to obtain your temporary authorization to operate)
- 4 You are audited by Apave Certification
- 5 You will receive your audit report and if successful your certificate, valid for 5 years, subject to t annual audits and proper monitoring
- 6 You forward your certificate to the CNAPS to get your final authorization

## Validity period of the certificate

5 years with an annual follow-up audit.

## Combined certificate

In addition of the specific certificate of your private security activities, you can also be labelled in the frame of "Quality of Training Actions" referential for the acknowledgment by the financers of the professional trainings (allocation of the training costs to the financers).

This label is recognized by the CNEFOP and by the funding authorities (OPCA, Pôle Emploi...).

## Apave Certification

Apave Certification, subsidiary of Group Apave, offers certifications process for the management system (ISO 9001, ISO 14001, ISO 50001, and ISO 45001). Apave Certification relies on a network of internal and external auditors that are qualified, across the national territory. Apave Certification operates in the voluntary field as well as in the regulatory field.

Apave Certification is an organization recognized and independent (third party) giving written guarantee that an organism, a process, a service or skills of individuals is compliant with the requirements specified in the referentials (standard, regulation, technical specification...).
