

ISO 3834 Certification

Enhance your welding procedures and skills

Certification of your quality system according to standard ISO 3834 participates in the success of your company by reinforcing customer satisfaction and motivation of the personnel.

The benefits

- Increased customer trust
- Reduction in costs
- Involvement of the personnel
- Progress-oriented approach
- Removal of commercial barriers
- International recognition

The procedures

ISO 3834 certification is a voluntary approach.

The standard takes account of the following themes :

- Quality : non-conformities and corrective actions, traceability,
- Review of the requirements, technical and subcontracting review,
- Organisation of workshops and process management,
- Skills of the personnel,
- Controls and calibration.

According to the criticality of the products manufactured (use), the manufacturing complexity, the range of products or the customer specification, the company chooses from the standards :

- ISO 3834-2 : Comprehensive quality requirements
- ISO 3834-3 : Standard quality requirements
- ISO 3834-4 : Elementary quality requirements

Combined certifications

Standard ISO 3834 can be used independently or integrated into any other management system. ISO 3834 certification can be combined with other certifications (ISO 9001, EN 15085, ISO 14001, ISO 45001, ISO 50001) and the audits can be coordinated.

The certification process

1	Certification Request
2	Planning
3	Initial audit
4	Certification decision
5	Issuing of the Certificate
6	Annual follow-up audit

Apave Certification

Apave Certification, a subsidiary of Apave Group, offers certification services for management systems (ISO 18788, ISO 9001, ISO 14001, ISO 45001...), products and services, skills, as well as labels and evaluations. It relies on a network of qualified internal and external auditors, spread over the French territory and abroad, and works in the voluntary framework as well as in the regulatory framework. Recognised and independent body (third party), Apave Certification provides written assurance that organisations, processes, products, services or skills of persons are compliant with the requirements specified in the standards (standard, regulation, specification technique, etc.).
