

Get the quality of your medical imaging services recognised

Obtaining a label for your medical imaging organisation is a recognition of the quality of the services of your practice and of your medical imaging services by an independent organisation mandated by the LABELIX Association.

The LABELIX standard is comprised of 10 chapters that define the 10 commitments to achieve in the fields of :

- welcoming and informing,
- hygiene and safety,
- measures in terms of vigilance,
- handling incidents and accidents,
- radiation protection for workers and patients,
- general organisation of activities,
- the structure's quality and safety policy.

Having the LABELIX label is :

External stakes

- Providing guarantees for the official services and supervisory authorities
- Highlighting the know-how and the skills for your customers
- Benefiting from external recognition

Internal stakes

- Ensuring the sustainability of good practices
- Increasing the solidity of the organisation
- Involving the teams around a shared project
- Developing a culture for continuous improvement

Who is involved?

Operators of a medical imaging site

LABELIX is a voluntary approach.

Set up at the initiative and under the responsibility of the Fédération Nationale des Médecins Radiologues (French national federation of radiologists), obtaining the label is organised and followed by the LABELIX Association.

To apply for the label in the best conditions, you should :

- analyse risks,
- integrate a policy with coherent objectives,
- follow performance indicators,
- identify resources and specific means,
- define responsibilities,
- master your communication,
- establish a procedure and operational control of activities,
- have a monitoring system,
- develop a crisis management procedure,
- set down the measures that guarantee continuous improvement.

Validity of the label

4 years with a document audit 2 years after the initial audit.

Combined certifications

The LABELIX label can be used independently or integrated into any other management system. Obtaining this label can be combined with other certifications (ISO 9001, ISO 14001, etc.) and the audits can be coordinated.

Apave Certification

Apave Certification, a subsidiary of Apave Group offers certification services for management systems (ISO 9001, ISO 14001, ISO 50001, OHSAS 18001). Apave Certification relies on a network of qualified internal and external auditors, all over France. Apave Certification works in the voluntary framework as well as in the regulatory framework.

Apave Certification is a recognised and independent body (third party), that provides written assurance that organisations, processes, products, services or skills of persons are compliant with the requirements specified in the standards (standard, regulation, technical specification, etc.).
