

ISO 19443 Certification

To certify the compliance of your supply chain against the nuclear industry requirements

The certification of the quality management system, including the specific requirements for organizations in the supply chain of the nuclear energy sector, supplying products and services important to nuclear safety (ITNS).

Your stakes

- To deliver ethically safe, competent and quality compliant nuclear products or services
- To implement a best practice and continuous improvement culture
- To enroll the safety and reliability philosophy into the company processes
- To keep compliance with legal requirements

Apave's service offering

ISO 19443 Certification

The terms and conditions

The certification process allows to identify and evaluate the management system and to perform gap assessment.

It drives compliance to necessary regulatory requirements and enables recognition that your organisation is nuclear focused through:

- A committed Leadership & Management for safety
- A nuclear safety culture embedded into the company
- A continuous measurement, assessment and improvement processes
- Standardized products and services requirements

It is addressed to organizations of all types and sizes, regardless of geographical, cultural and social conditions, but supplying products and / or services important to nuclear safety (ITNS).

The combined certifications

The ISO 19443 standard on quality management system can be used independently or in an integrated way to any other management system. The ISO 19443 certification can be combined with other certifications (ISO 9001, ISO 14001, ISO 45001...) and coordinated audits.

The certification process

1	Certification request
2	Planning
3	Initial Audit
4	Decision making
5	Certificate issued
6	Annual follow-up audit

Our strengths

Apave Certification, a subsidiary of the APAVE Group specialized in certification, offers management systems certification services (ISO 9001, ISO 14001, ISO 50001, ISO 45001). Apave Certification relies on a network of qualified auditors, internal and external, spread over national territory.

Apave Certifications operates in the voluntary sector as in the regulatory sector.

Apave Certification is a recognized and independent (third party) organization, giving written assurance that an organization, a process, a product, a service or skills of an individual complies with the requirements specified in the reference frameworks (standards, regulations, technical specifications, etc.).
