ISO 22301 Certification
Business continuity management

Continue your activity, whatever the circumstances may be !

You wish to protect yourself from disruptive incidents, reduce their probability of occurring, prepare for them, respond to them and get back on schedule quickly if they occur ? Increase your resilience !

This is the purpose of ISO 22301 certification which allows companies to plan, establish and implement a business continuity management system. This certification is the international reference. It is designed to adapt to all organisations, independent of their size and the nature of their activities, taking account of their environment and the complexity of their operation.

ISO 22301 certification allows you to anticipate the risks that bear down on your organisation, to ensure the continuity of your activities as well as returning to a normal situation following a disaster (flood, fire, terrorist attack, etc.).

The benefits

- Manage the risks and the change in your environment / context
- Anticipate crises
- Enhance your image
- Meet the stakes of your customers
- Demonstrate your compliance

Certification

The procedures

ISO 22301 certification is a voluntary certification. To apply for certification in the best conditions, it is desirable :

- that your system has been in place for at least 6 months,
- that an internal audit has been conducted,
- that a management review has been conducted.

It is intended for any type of organisation, irrespective of their size, organisation, activity sector.

Validity of the Certificate

3 years, with annual follow-up audit.

Combined certifications

ISO 22301 certification is often associated with ISO 27001 certification - information security management system, but you can also group it together with any management system certification (ISO 9001 - Quality, ISO 14001 - Environment, etc.).

The certification process

1	Certification Request
2	Planning
3	Initial audit
4	Certification decision
5	Issuing of the Certificate
6	Annual follow-up audit

Apave Certification

Apave Certification, a subsidiary of Apave Group, offers certification services for management systems (ISO 18788, ISO 9001, ISO 14001, ISO 45001...), products and services, skills, as well as labels and evaluations. It relies on a network of qualified internal and external auditors, spread over the French territory and abroad, and works in the voluntary framework as well as in the regulatory framework. Recognised and independent body (third party), Apave Certification provides written assurance that organisations, processes, products, services or skills of persons are compliant with the requirements specified in the standards (standard, regulation, specification technique, etc.).
