

ISO 9001 Certification

Enhance your performance and your competitiveness !

Certification of your quality management system according to standard ISO 9001 participates in the success of your company by reinforcing customer satisfaction and motivation of the personnel.

The benefits

- Increased trust for customers in meeting their needs and expectations
- Reduction in costs
- Involvement of the personnel
- Progress-oriented approach
- Removal of commercial barriers
- International recognition

The procedures

ISO 9001 certification is a voluntary approach. To apply for certification in the best conditions, it is desirable :

- that your quality management system has been operational for 6 months and has undergone an internal audit at least once,
- that a management review has been conducted.

It is intended for bodies of all types and sizes, regardless of the geographical, cultural and social conditions.

Combined certifications

Standard ISO 9001 on quality management systems can be used independently or integrated into any other management system.

ISO 9001 certification can be combined with other certifications (ISO 14001, ISO 45001, ISO 50001) and the audits can be coordinated. This combined audit saves you time and money, which is estimated at ~20%.

APAVE Group is able to offer you a **joint ISO 9001 and Quality Assurance audit** (an Apave Certification auditor accompanied simultaneously by an Apave expert in the field involved). This joint audit allows you to save time and makes for easy organisation/planning. The fields concerned by the joint audits are :

- **Lifts** (evaluation of compliance with the chosen Quality Assurance module of Directive 2014/33/EU),
- **Pressure equipment** (evaluation of compliance with the chosen Quality Assurance module of Directive 2014/68/EU),
- **Machines** (evaluation of compliance with the chosen Quality Assurance module of Directive 2006/42/EC),
- **PPE** - Personal protective equipment (evaluation of Quality Assurance compliance of the production mode - Module D of EU Regulation 2016/425).

The certification process

1	Certification Request
2	Planning
3	Initial audit
4	Certification decision
5	Issuing of the Certificate
6	Annual follow-up audit

Apave Certification

Apave Certification, a subsidiary of Apave Group, offers certification services for management systems (ISO 18788, ISO 9001, ISO 14001, ISO 45001...), products and services, skills, as well as labels and evaluations. It relies on a network of qualified internal and external auditors, spread over the French territory and abroad, and works in the voluntary framework as well as in the regulatory framework. Recognised and independent body (third party), Apave Certification provides written assurance that organisations, processes, products, services or skills of persons are compliant with the requirements specified in the standards (standard, regulation, specification technique, etc.).
